

Dear Parents and Carers,

As we begin another successful school year, I would like to thank you for your continued support of the School Streets Scheme at Warden Hill. Your cooperation helps us create a safer, healthier and more welcoming environment for all of our children.

School Street Closure Times

Please remember that Durham Close is closed to vehicles during the following times each school day:

- **8:15am to 9:00am**
- **2:45pm to 3:30pm**

During these times, only vehicles with an approved School Street permit may enter Durham Close.

After-School Club Collections

Please also note that vehicles are not permitted to enter the school site between 3:55pm and 4:15pm for after-school club or extra-curricular club collection. We ask families to park outside the school site and walk to the collection point during this period.

Important Information About Permits

School Street permits are valid only when the approved circumstances apply. For example:

- A Blue Badge permit may only be used when the Blue Badge holder is travelling in the vehicle.
- If the approved permit holder is not present, the vehicle must comply with the normal School Street restrictions and may not enter Durham Close during the road closure times.

Even where a permit has been granted, we encourage families to park outside the restricted area and walk to school whenever possible. This helps reduce traffic around the school and supports the aims of the School Streets Scheme.

Further information about the scheme, eligibility criteria for vehicle access permits, application procedures, and permit conditions can be found in the school's School Streets Policy, which is available on the school website or from the school office.

Belong • Explore • Succeed

If you have any questions about the scheme or require support with a permit application, please contact the school office. We are committed to working with families to ensure individual needs are met while maintaining a safe environment for all members of our school community.

Thank you for helping us keep our children, families, and local community safe. Your support is greatly appreciated and plays an important role in making Warden Hill a safe and positive place for everyone.

Kind regards,

James Antonious
Assistant Headteacher
